SAN FRANCISCO BAY REGION

ORDER NO. 77-138

ORDER AMENDING ORDER NO. 76-9

TO ADOPT A REVISED COMPLIANCE TIME SCHEDULE FOR:

CITY OF BERKELEY AND BERKELEY LANDFILL COMPANY
CLASS II-2 SOLID WASTE DISPOSAL SITE
BERKELEY, ALAMEDA COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region, finds that:

1. The Regional Board on January 20, 1976, adopted Order No. 76-9 prescribing waste discharge requirements and a compliance time schedule for the City of Berkeley and Berkeley Landfill Company, Class II-2 solid waste disposal site.
2. Provision D.3 of Order No. 76-9 requires that the discharger eliminate seepage or discharge of polluted water to waters of the State by July 1, 1976. The work necessary to comply involves the sealing of the northerly perimeter dike and a portion of the easterly and westerly perimeter dikes. The project was delayed due to land disputes with the Corps of Engineers. The Corps of Engineers granted the necessary permit in March 1977. The project was delayed for reasons beyond the discharger's control.
3. The Board adopted a Water Quality Control Plan for the San Francisco Bay Basin, in April 1975, and this Order implements the Water Quality Objectives stated in that Plan.
4. The Board has notified the discharger and interested agencies and persons of its intent to amend waste discharge requirements for this site.
5. The Board, in a public meeting, heard and considered all comments pertaining to the discharge.
6. This Project involves the continued operation of a publicly owned and privately operated landfill, with minor alteration to the land. Consequently, this project will not have a significant effect on the environment based upon the exemption provided in Section 15101, Title 14, California Administrative Code.

IT IS HEREBY ORDERED that Order No. 76-9 is amended to read as follows:

The discharger shall comply with the following time schedule to assure compliance with Provision D.3.
